

Air1 is a local broadcasting company that has helped keep my life as well as others that I know stable and rational through times of crisis. Air one does not only play music, but often broadcasts helplines to troubled people in hopes that they will be able to reach them before they make a horrible decision. Even if the LPFM station did make such announcements in place of Air1, the effect would not be the same because Air1 offers genuine concern and is often involved with the community.

Air1 is a radio station that is tuned to the needs of the people. It not only sends music that increases the self respect for other people as well as themselves. Air1 also shows that it cares about what happens in its community. Air1 is a listener supported radio station, so its interests are based upon the interests of the community rather than the interests of making a profit.
